

WEEKLY UPDATE

4/22/2021

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 62 residents and 30 staff members test positive for COVID-19. We are now required to test our staff once a week due to the Williamson County positivity rate at 5.5%. We are excited and continue to practice infection control at our very best each day.

We are still offering essential caregiver visits and general visits. If you would like to schedule an appointment to set up a visit, please contact the facility. We must know 24 hours in advance of your visit so that we are properly staffed to accommodate. We do ask that you continue to practice safety in regard to the exposure of COVID-19. We want to continue to provide the safest environment for our residents, your loved one.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 512-840-7000.

Sincerely,

Adrianna Rodriguez
